The General Manager,
ALDI Stores,
Minchinbury,

Dear Sir/Madam,

This Association gives wholehearted support to our community Pharmacist David Missak, in his desire to have constructed a pedestrian access between the ALDI property at Pt Clare and his pharmacy next door.

Our members have always supported the coming of ALDI into our community and were delighted to discover when construction began that there would be pedestrian access from the ALDI Car Park through to the car parks at the Pharmacy and Medical Centre.

The pleasure has turned to disappointment at the very long time, over two years now, it has taken for ALDI Stores to allow the construction to proceed.

The accompanying petition, containing over 500 signatories indicates the strength of community feeling on this matter. We, as the Progress Association for the area, earnestly request that you take the necessary steps to allow the project to progress. We understand that Mr. Missak has, at his own expense, already obtained the relevant specifications for the proposed platform and stairs to link the two properties.

Mr. Missak has indicated in his letter he is looking for a positive response from your company.

We, for the good of our local community, concur and support him in his efforts.

Yours faithfully,

W. Jon Fearon

President, K & PC-T Progress Association.
